

# WORLD EGG THROWING FEDERATION

## EGG TREBUCHET CHAMPIONSHIP

### APPLICATION FORM

NAME OF TEAM CAPTAIN:	
NAME OF TEAM:	
COUNTRY REPRESENTED:	
CONTACT ADDRESS:	
TEL:	EMAIL:

#### APPLICATION DETAILS

Please complete and return this form BEFORE 1st June by post (WITH Stamped Addressed Envelope) to: Alan Wilson, Goosegate House, High Street, Swaton, Lincs, NG34 0JR.

On receipt of the application 4 free admission wrist bands will be sent which must be worn to enter the event on the day.

#### ON THE DAY

Enter the site via the visitors entrance (this closes at 10am).

Trebuchets must be on site by 10am.

Once vehicles are unloaded they must be removed to the designated parking area.

Briefing will take place at 11am.

Site address: Access the car park from North Drove, Swaton, NG34 0JP. (What Three Words reference ///immune.hypocrite.pizzeria). Advise the parking stewards that you have a trebuchet and they will guide you to parking nearer the event field.

Any Queries – Call Alan on 01529 421334 or 07949 615982 - Email : Wilson.alan.m@gmail.com

# Egg Trebuchet

## Rules

### The Trebuchet

- A team must construct a gravity powered machine based upon an ancient or modern trebuchet design.
- The machine's main legs must have a footprint no greater than 2 square metres. Additional stabilisers/outriggers may protrude beyond this when the machine is placed ready for hurling.
- The complete machine must be portable by 2 persons without the aid of wheels, rollers, levers or similar
- Each Trebuchet must be powered entirely by gravity and operated by a counter balance device not exceeding 9 litres capacity.
- Each machine and the operators must satisfy the Judges opinion as to safety of the operators and bystanders.

### The Competition

- The objective of the competition is to throw a raw egg using the trebuchet to a team member who must catch the egg without the aid of any equipment.
- The team member catching the egg (The Catcher), must be stood at the predefined distance as the egg is launched from the trebuchet. Once the egg is airborne the catcher may move to the expected landing point of the egg.
- The predefined target distance starts at 10m and increases by 10m after two egg throwing attempts at each distance.
- 1 point is awarded if the catcher contacts the egg before it reaches the ground. 3 points are awarded if the egg is caught without breaking.
